# Deprecate dynamic properties
## Will throw an ErrorException in PHP 9.0

```php
class BergenPhp {}
$nix = new BergenPhp();
$nix->beer = 'Hansa';
```

Property declared dynamically, this is deprecated starting from PHP 8.2

Add '#[AllowDynamicProperties]' to 'BergenPhp'  ⌥⇧↵    More actions...

# Readonly classes

**syntactic sugar**

```php
readonly class Post82
{
    public function __construct(
        public string $title,
        public Author $author,
        public string $body,
        public DateTime $publishedAt,
    ) {}
}
```
